# ACCESSORIES

Technology future-proof with extensive mounting possibilities for all your devices

## Universal shelves

## Device mounts/shelves

## Installation

## Display holders

# Future adapted design

EVER stands are designed for the needs of today, but prepared for whatever the future has to offer. With the modular approach EVER stands are extremely flexible products with a high level of adjustability and customization. With the possibility to upgrade your stand, the changing needs of tomorrow are easy to cover. The timeless design makes sure the stand blends well with the surrounding for years to come.

## Space clever

With EVER stands you can use your workspace more cleverly and boost team **collaboration**. With the high **mobility** you can easily move them around and meet anywhere, heavily reducing the need for fixed installation. Good for both wallet and planet.

## Flexible and adjustable

With a focus on flexibility, EVER Stands feature adjustable components and modular design, allowing you to tailor the stand to your changing requirements.

## Easy to upgrade

EVER Stands are designed to facilitate seamless upgrades. As technology advances or your needs evolve, you can easily enhance your stand's capabilities without the need for a completely new stand.

## Timeless and future proof

Embracing a timeless aesthetic, EVER Stands effortlessly blend into any environment, both today and for years to come.

### Ergonomic work

Our mounting systems allows you to mount accessories and handles in any height.

### Fast and Flexible

With our QuickAdjust system height can be adjusted in no time. No tools required.

### Adjustable wheelbase

With our modular and innovative design approach adjustability is built into the design.

### Upgrade to a new look

Our clever cover system makes it quick, easy, and affordable to upgrade the look of your stand.

### Turn fixed into motorized

Make your fixed stand more useable by adding a motor kit.

### Change the size of your stand

It's possible to change the width of your stand. Keep the side section and only replace the middle section.

## Simple assembly

The EVER stands arrive in a single box with the core body pre-assembled. Minimal parts ensure a quick and easy setup - you'll be up and running in no time.

## Smart inside and inviting outside

The clever inside of the stand hides the tech away and makes installation easy and super clean. This provides a minimalistic exterior that, together with the uniform design language over the entire range, creates an inviting and easy-to-understand product where all functions are clear and work the same way. Knowing one you know them all.

On the picture you can see the Interior installation shelf accessory. With this you can streamline the device installation process, making it both faster and more professional.

## What style are you?

### Two base colours

EVER stands come in two colours, Midnight Grey and Light Grey.

To complement them and provide more design options, we offer three different cover options:

**Soft covers**- made of acoustic recycled PET felt.

**Clean covers** - made of powder coated aluminum.

**Edge covers** - made of painted MDF with a stripe pattern.

Each of them with a unique look and clear benefits.

### Clean covers

With a unique fastening technique, EVER's aluminium covers are super quick to open and close. No screws or tools needed. The smooth aluminium covers have the exact same colour and surface finish as the rest of the stand, providing a unicolor and minimalistic look.

### Soft covers

With our acoustic covers you get excellent soundabsorbing properties and contributes to a quieter and more productive work environment. Furthermore, PET felt is a sustainable choice, made from recycled plastic bottles. And on top of all it is a very good choice when placing WiFi devices inside the stand.

### Edge covers

The smooth and fine finish of our crafted MDF covers provides a distinct furniture feel that adds a touch of sophistication to the office environment. Compared to other commonly used furniture materials, like high quality plywood, MDF is a more affordable choice and maintains its shape over time.

# Customize to fit your office

With our EVER Custom offer you  
can really stand out from the crowd.
