XILICA®

XT80-TTS ACCESSORY MOUNT

XT80-TTS is a premium table-top mounting solution for the XTouch 80 eight-inch touch-control, enabling easy positioning and installation in corporate conference facilities, classrooms, lecture theaters and courtrooms. Designed by StudioX™, XT80-TTS is an aluminium stand-mount finished with a durable matt black coating. It is a two-part assembly for quick installation, incorporating cable access both to the underside and rear for CatX connection, and offers a robust security locking function to deter theft in high-traffic environments. Additionally, it is complete with non-slip feet to avoid marking and scratches on gloss surfaces.

BENEFITS

› Premium design from Xilica's in-house design collective, StudioX™, and finished with a low-shine matt black coating.

› Constructed from high-quality aluminium to minimize weight, while offering a simple and rapid two-part assembly.

› Integrated locking method for theft prevention, and direct cable access at both rear and underside.

› Covered by the Xilica Five Year Limited Warranty, and purpose-designed for the XTouch 80 eight-inch touch-control.
