

ADD-10T-POE v2

The ADD-10T-POE v2 is our 10.1” fully integrated Advertising Display and Digital Signage player with Power over Ethernet. Ideal for situations where space is limited and touch input is required e.g. retail, shelf edge and point of information applications.

Our range of Integrated Player Displays subscribe to your CMS or Publisher and are capable of displaying a full screen HTML5, image or video zone of content. These devices can be used in a mixed network of both NTBs and ONELAN SoC player.

Features

- Reliable commercial grade tablet for digital signage applications
- Compact integrated form factor
- Capacitive multi touch touchscreen
- Power over Ethernet
- Wi-Fi connectivity
- Single HTML5, image and video zone player
- 1280 x 800 display
- Compatible with an existing ONELAN Publisher/ CMS network
