

COMM-TEC is the new distributor for Lenovo ThinkSmart solutions

COMM-TEC announces the launch of Lenovo's innovative ThinkSmart portfolio for intelligent conference rooms in Germany, Austria and Switzerland.

Uhingen, February 11th, 2020

[COMM-TEC GmbH](#) is now expanding its portfolio in the area of collaboration and UCC with the innovative ThinkSmart solutions from [Lenovo](#). As part of the new sales partnership, dealers and integrators in Germany, Austria and Switzerland will be able to offer their customers native room solutions for Microsoft Teams and Zoom Rooms in immediate future. The innovative All-in-One system reduces installation efforts to a minimum and enables more efficient video conferencing and meetings.

Lenovo's [ThinkSmart portfolio](#) makes meetings more productive than ever before. The ThinkSmart Hub 500 is very flexible and can be adapted to any unified communications platform and is also available for Microsoft Teams or Zoom Rooms. It is scalable for any room size - from single workspaces to large conference rooms. The solution portfolio includes hardware and software as well as services, like Lenovo's own Smart Office Professional Services, that help customers to take advantage of new and networked technologies to meet the demands of a changing work environment. Lenovo is taking a major step towards intelligent conference rooms.

Brand new to the portfolio is the ThinkSmart View. It will be shown for the very first time in Europe at the stands of Lenovo and COMM-TEC at the ISE in Amsterdam. The smart system is in particular designed for video conferencing at the workplace. With an intuitive touchscreen interface, Microsoft Teams Meetings, for example, can be started with just one touch. Voice or video calls can be made without any impairment while working on the PC. As a result, ThinkSmart View creates more personalized business communications at both individual and group levels, while helping to increase productivity and optimizing workflows.

"We are convinced that we expand our UCC solutions portfolio in a reasonable way by adding Lenovo as a strong manufacturer in the growing segments of Microsoft Teams and Zoom," says Carsten Steinecker, Managing Director Business Development at COMM-TEC GmbH.

"COMM-TEC has been supporting the specialist trade for many years with its products and expertise in the AV product segment," explains Oliver Rootsey, Director SMB/Channel Lenovo Germany/Austria. "We are pleased that our business partners can now benefit from this know-how and purchase our Smart Office UCC video conferencing product line from COMM-TEC as part of the overall conference room solution".

About COMM-TEC

For more than 30 years, COMM-TEC GmbH has been one of the largest and most renowned value-add distributors for AV media technology in Europe. The company headquarters is located in Uhingen near Stuttgart and distributes the products of more than 50 well-known manufacturers. The business units "Digital Signage & Media Solutions", "Collaboration & UCC", "Signal Management", "Pro Audio & Control", "Display Solutions" as well as "Racks & Mounts" provide master technicians, system integrators and architects with the optimal hardware for their requirements. COMM-TEC acts strongly according to its claim "Think Solutions": it creates a consciousness for thinking and acting in terms of solutions, and for offering solutions. COMM-TEC supplies everything from one source, from planning through consultation to implementation.
